## AFTER-SCHOOL PROGRAMS

What are you doing when school's out?

At Common Ground, you can:

**E**xplore the forest. Design a nature guide for West Rock Park. Meet other young people. Take trips to new places and camp overnight in the woods. Help save our local environment. Experience real diversity. Play around outside. Figure out how nature works. Build trails. Become a leader.

Common Ground offers an after-school program designed just for middle school students. It combines leadership and service, hands-on environmental learning, and outdoor adventures. And it brings together young people from all over the New Haven area for two 9-week sessions.
